49. The method as claimed in claim 47, further including a gravity separation vessel which is provided with an inlet for a supply of the mixture, wherein the processing vessel can be mounted in the gravity separation vessel with the inlet connected to the inlet of the gravity separation vessel, wherein the first and second outlet openings of the processing vessel are arranged for the discharge of the first mixture part and the second mixture part into a space of the gravity separation vessel for further separation of the second mixture part.

ABSTRACT:

After the claims, please insert a page containing the Abstract Of The Disclosure, which is attached hereto as a separately typed page.

REMARKS

This Preliminary Amendment conforms the specification and the pending claims to customary United States practice.

Original claims 1-25 and amended claims 1-24 submitted during Chapter II have been canceled and rewritten as new claims 26-49 in order to eliminate the multiple dependencies and to bring the claims into conformance with standard United States patent practice.

An Abstract Of The Disclosure has been added as a separately typed page to be inserted after the claims.

Attached hereto is a marked-up version of the change made to the specification by the current amendment. The attachment is captioned "VERSION WITH MARKINGS TO SHOW CHANGES MADE".

Examination and allowance of claims 26-49 are respectfully requested.

Respectfully submitted,

WEBB ZIESENHEIM LOGSDON
